PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2.5 years of experience leading and executing cross-functional teams to deliver high-quality IT solutions. Demonstrated expertise in full-stack development, system integration, and cloud technologies. Strong track record of analyzing requirements, designing scalable systems, and meeting project deadlines while maintaining budget constraints.

TECHNICAL SKILLS

Programming Languages & Frameworks

- **Primary:** Python, Flask, JavaScript, ReactJs
- **Secondary:** HTML, CSS, Robot Framework

Cloud & Infrastructure

- **Cloud Services:** AWS, GCP, Azure
- **Tools & Technologies:** Kafka, PostgreSQL, REST APIs, Docker
- **Protocols:** SMB, NFS

PROFESSIONAL EXPERIENCE

Software Engineer

December 2022 - Present

Ivtree, Bangalore

File Share Management Platform

- Handled backend as well as database management and also designed mail templates.
- Working on various data handling operations, built complex Api's, used celery, beat and other libraries for performing scheduled tasks
- Understand and worked under various file transfer protocols such as Smb, Nfs and also designed apis for storing data to cloud platforms such as gcp, aws and azure
- Implemented mail notification system, encryption decryption of data and integrated chatgpt module, integrated microsoft sharepoint.
- Worked on frontend part with ReactJS to design pages, tested the platform with robot framework continuously.

Contract Management Platform

- Architected end-to-end contract management solution with digital signature support and S3 backup
- Implementation of mail notification system, Chatgpt module, Zoho digital signature, S3 backup, OCR, designed mail templates.
- Implemented OCR capabilities and integrated Zoho digital signatures
- Tested the apis as well as front-end with robot framework.

Ticket Management Platform

- Developed a Ticket Management System with S3 support, also integrated custom mail notifications.
- Used Celery and Celery-beat for performing asynchronous operations for mail and file operations.
- Managed whole back-end and database.
- Contributed in frontend by developing react components.

PROJECTS

Zeal ERP System - (GitHub Repository)

- Developed full-stack ERP system using PHP backend and React.js frontend.
- Implemented core features: fee payment, digital library, real-time chat.

- Built a robust file management system for academic resources with categorization and sharing capabilities.
- Technologies: PHP, MySQL, JavaScript, Bootstrap, Razorpay API, WebSocket, Encryption Libraries

EDUCATION

Bachelor of Engineering in Computer Science

August 2018 - July 2022

Savitribai Phule University

CERTIFICATIONS

- Kafka Basics
